PRESCOTT, ARIZONA, WEDNESDAY, MAY 27, 1903.

Fortieth Year.

BATCH OF NEWS  
FROM EUREKAMining Interests Active  
and Prosperous.Gold Link Ready to Start Up Soon.  
Other Properties Coming  
to the Front.

Eureka District, May 21.—Eureka District is coming to the front. The Gold Link company's mill, which is nearing completion, will, in thirty days, be dropping its stamps on "Sultan" ore, of which the company has been between twenty and thirty thousand tons blocked out, which means the adding of another big producer to Yavapai's long list. This company has one of the finest and most substantial, if not the finest, plant in the territory, the owners believing in the old adage, "What ever you do, do right." Hugo Johnston, of Chicago, president of the company, in company with the mayor of Prescott, Hon. Dennis A. Burke, A. Falco and E. M. Clark, the Groom Creek operator, this week visited this property under the management of H. La Montagne. Success is inevitable, as Harry is a thorough mining man and the Sultan has the goods in it. Besides the Sultan this company owns the Allerton, Wyandotte City, Christmas and others, all carrying good values. The electric plant, pump, pipe, in fact everything is now on the ground so there will be no hitch when the stamps are ready to drop, only fifty men are now employed, but the force will be increased as soon as there is room in the mine.

Two more sales are under way on Santa Maria, one being the Purple Rose group, owned by Jos. Howells and situated near the Waters mine. The other is the Mammoth group, owned by Alex. Lucy, situated three quarters of a mile west from the Sultan. Both these properties have lots of ore in sight carrying good values.

The smiling face of J. T. Douglas, of New York, is back on Santa Maria. He knows where to find good mines when he wants them, having made one fortune out of Santa Maria mines.

D. H. Smith is pushing work on the Prince claim owned by him and Mr. John Roberts.

Wm. Marshall is building an arastra to crush the high grade ore out of his Red Rock mine. He has quite a large pile of ore on the dump.

Jack McNeil has struck a rich body of ore on a new discovery, the River Bend. This claim is near the Gold Standard mine near Dan Thorne and others sold a few years ago for thirty thousand dollars.

Bill Soakes is driving a tunnel to tap a ledge at which place he expects to make his fortune. This ledge shows more free gold on the surface than any ledge on the river. Bill, having good judgment and storing qualities, is bound to succeed.

The Ed Hahnel and Dan Webster properties close to the Sultan, hold their sales as work progresses, and great will be their reward when the man comes along, that knows what he is looking for, a good thing.

Bolt, Dunlap is piling up some fine looking ore on the dump of the Red Rock, owned by him and Robt. Shultz.

Deputy Recorder Colwell is working on his Buzzard Roost claim, with gratifying results.

Pete Sorenson is doing very well with his horse power dry washer. Pete has his plant so thoroughly equipped that he can save the finest of gold.

Godsmark and Ferris of Los Angeles, Cal., are pushing work on the Newman group, with flattering results. These gentlemen have the property under bond and have a heavy McGrew will soon start to work on the Toole and Buster claims, the new strikes made near Thompson valley, by him and Marshall. Should the values continue as depth is attained these gentlemen will ship five car loads of ore at once to the Sharpeck mill at Kirkland, for treatment, these claims being close to the railroad.

E. Lesman, the popular station keeper of Santa Maria, is keeping up with the times building porches, shades, etc.

Mr. and Mrs. C. S. Black are holding down the Water Mill.

Tom Twomey is laid up with a dose of grippe.

Pard Pierce is farming the Irwin Shultz place.

Mrs. C. A. Faust has a fine garden, all the early stuff gone, melons, etc., coming on.

J. R. Padlock has settled down and gone to farming.

A brand new postoffice has been established, known as Sultan, H. La Montagne postmaster.

Mrs. J. D. Shipp contemplates a trip to San Jose, California, in the near future to visit her sons who are attending school here.

J. D. Shipp and Robt. Miller have made their last shipment of cattle for this year.

Robt. Shultz intends gathering horses in the near future for eastern market.

T. J. Neiman is branding up horses.

T. R. Darnell & Son, horse keepers, are doing a fine business, trade increasing right along. Hillsdale is quite a little town now owned mostly by these gentlemen, their motto being good goods, meals, beds, and courteous treatment.

Henry Ritter is putting up a new six room house on his ranch north of Thompson valley.

McDrew, Phigney and Scott all have good hay crops, which they are cutting.

Home Hixon, who has been confined to his bed for the past nine months, is on the improve.

## Cattle and horses are fat, and a prosperous year is the outlook for Eureka District.

## Tempe's New Industry.

President F. A. Hough of the Tempe-Mesa Produce company yesterday closed a contract with C. T. Rogers & Sons of Detroit, Michigan, for an eighty ton milk condenser which will be added to the already extensive plant of the company.

The industry of this new industry will mark the most important step taken by this section. Without increasing the cost of production one cent, it will immediately increase the price of the milk of the south side 25 per cent, and every rancher as well as every business man will become a direct beneficiary, for it will be the means of annually bringing to Tempe thousands of dollars of outside money.

The present output of milk on this side of the river is estimated at 30,000 pounds daily. The capacity of the condenser is three times the amount now produced. With the present supply of milk a carload can be turned out every two days. In addition to the condenser there will be a department for the manufacture of all the cans used in handling the product. When the plant shall have reached full capacity, thirty persons will be required to operate it. There will be no trouble in finding a ready sale for the product, as we are reliably informed that the present supply is barely sufficient for the home consumption, and China, Japan, as well as other foreign countries are in the market for immense quantities which the importers have been unable to supply. The people of this section are to be congratulated, and it is hoped that the most sanguine expectations of the promoters will be fully realized. The work of preparing suitable buildings for the machinery will be commenced at once and will be pushed to the earliest possible completion.—Tempe News.

## A Narrow Fire Escape.

What might have been a serious fire was averted by quick action and steady nerves last night. About seven o'clock L. Winkless, one of the deliverymen for R. H. Burmister & Sons Co., was returning from the barn where he keeps the team he uses when he was started to see a cloud of black smoke issuing from the window of his room in the Sultan. Mr. Winkless called for Prof. Jolly, who was sitting on the porch of J. H. Robinson's residence, and together they rushed into the room but the place was so filled with smoke that they could not reach the fire. Mrs. Winkless called for Prof. Jolly, who was sitting on the porch of J. H. Robinson's residence, and together they rushed into the room but the place was so filled with smoke that they could not reach the fire. Mrs. Winkless called for Prof. Jolly, who was sitting on the porch of J. H. Robinson's residence, and together they rushed into the room but the place was so filled with smoke that they could not reach the fire.

Jack McNeil has struck a rich body of ore on a new discovery, the River Bend. This claim is near the Gold Standard mine near Dan Thorne and others sold a few years ago for thirty thousand dollars.

Bill Soakes is driving a tunnel to tap a ledge at which place he expects to make his fortune. This ledge shows more free gold on the surface than any ledge on the river. Bill, having good judgment and storing qualities, is bound to succeed.

The Ed Hahnel and Dan Webster properties close to the Sultan, hold their sales as work progresses, and great will be their reward when the man comes along, that knows what he is looking for, a good thing.

Bolt, Dunlap is piling up some fine looking ore on the dump of the Red Rock, owned by him and Robt. Shultz.

Deputy Recorder Colwell is working on his Buzzard Roost claim, with gratifying results.

Pete Sorenson is doing very well with his horse power dry washer. Pete has his plant so thoroughly equipped that he can save the finest of gold.

Godsmark and Ferris of Los Angeles, Cal., are pushing work on the Newman group, with flattering results. These gentlemen have the property under bond and have a heavy McGrew will soon start to work on the Toole and Buster claims, the new strikes made near Thompson valley, by him and Marshall. Should the values continue as depth is attained these gentlemen will ship five car loads of ore at once to the Sharpeck mill at Kirkland, for treatment, these claims being close to the railroad.

E. Lesman, the popular station keeper of Santa Maria, is keeping up with the times building porches, shades, etc.

Mr. and Mrs. C. S. Black are holding down the Water Mill.

Tom Twomey is laid up with a dose of grippe.

Pard Pierce is farming the Irwin Shultz place.

Henry Ritter is putting up a new six room house on his ranch north of Thompson valley.

McDrew, Phigney and Scott all have good hay crops, which they are cutting.

Home Hixon, who has been confined to his bed for the past nine months, is on the improve.

THE EAGLES  
HAVE PICNICNearly Eight Hundred  
People Attend.The Numerous Events Greatly Enjoyed—List of Prize  
Winners.

The first anniversary celebration of the local series of Eagles took place yesterday at Granite Dells and was in the shape of a grand picnic to which the general public had been invited to participate. The invitation was accepted by between 700 and 800 people and the picnic grounds looked as if they had suddenly been transformed into a busy city street for there were people, people everywhere, all having a good, social time and thoroughly enjoying the sports of the day, which were conducted in an orderly manner, and no rowdian or disorderly conduct was allowed.

The weather was splendid at the Dells, the place being protected from what wind was blowing by the rocks and trees and the day was one of supreme enjoyment from every standpoint. No expense or labor had been spared to make the occasion one long to be remembered by those in attendance, and not a word has been heard concerning the picnic but what was in the loudest praise of the Eagles for the splendid management of every detail.

One of the chief attractions of the picnic, and one in which as many were interested as any other feature, was the baby show. There were quite a number of babies on exhibition for the prizes, and they were as sweet and pretty a gathering of little people as one could find in any country, and it was no easy matter for the judges to make their choice. There were four prizes to be competed for and one, a basket of candy, which Burmister & Sons Co. gave, was for all the babies. The judges for the show consisted of three gentlemen and two ladies, and the babies were exhibited in such a manner that no one knew whose child they were, so the prizes were awarded in an absolutely impartial manner. The babies winning the prizes were: Mrs. W. J. Wilsey's baby, first prize, a baby carriage; Mrs. Tom Smith's baby, second prize, a child's roller; Mrs. Crose's baby, third prize, toy machine; Mrs. Firebaugh's baby, fourth prize, picture book.

Harry Van Allen, in behalf of the local members of the series, had purchased a new set of bowling balls which was to be given to the ugliest Eagle present, the matter to be decided by vote at ten cents per vote. The contest was quite lively and resulted in the one being voted back to Mr. Van Allen, it being the opinion of the majority present that he was the ugliest as well as the best hearted Eagle on the grounds.

The base ball game was one of the best that has been played in this section this season and aroused great enthusiasm among the admirers of the two teams. The soldier boys succeeded in winning the game by a score of eight to ten, and they were entitled to the honor for they certainly did have to work for it. This new leaves the teams on equal footing as far as honors go, being two games each for the season. The deciding game was held in the afternoon and was won by the home team.

There were no dull moments during the day, as there were a large number of events in which good prizes were offered and they were warmly contested for.

The results of the races were as follows:

Boys' foot race, 50 yards—Won by Charlie Smith. Prize, pearl handled knife.

Girls' foot race, 50 yards—Won by Sadie Munds. Prize, bottle of perfume.

Ladies' foot race, 50 yards—Won by Mrs. F. G. McCoy. Prize, Silver ester.

Girls' egg race, 50 yards—Won by Marguerite Sullivan. Prize, Ham.

Free for all ladies' race, 50 yards—Won by Minnie Davis. Prize, Handkerchief case.

Pat men's race, 50 yards—Won by L. W. Felt. Prize, three baths at "Casey's."

Married men's race, 50 yards—Won by Luther Harrell. Prize, Four shaves at Garrett's barber shop.

Three legged race, 25 yards—Won by Harold Munds and Charlie Smith. Prize, Pound cake.

Free for all foot race, 50 yards—Won by Frank Mansfield. Prize, Pair of "Walker" shoes.

The second free for all foot race, first prize ten meals, was won by Ed Hendon; second, neck tie, was won by Mike Dostie.

The boat race was won by Jim Morrell. Prize, ten meals.

The tug of war between the Eagles and the Whipple barracks teams was won by the Eagles. The prize was one barrel of Raitner beer, ten boxes of cigars, and one bottle of prize goods.

MINING INTELLIGENCE.

A Tucson telegram says: The Silver Bell copper mines were sold to the Imperial Copper company for a fraction over \$1,000,000. The sale embraces sixty mining claims and two sixty ton furnace plants. The principal purchasers are E. B. Gage and F. M. Murphy of Arizona; George Boston Vendors and Louis Zerkendorf of New York; A. Steinfield and J. N. Curtis of Tucson. Over a million dollars' worth of copper products have been taken out of the Old Boot mine since the group was purchased for four years. The mines are located forty miles west of Tucson and twenty miles south of Redrock on the Southern Pacific railway. Orders were issued today for the erection of a 500 ton plant. Five hun-

dred miners will be put to work as fast as they can be had. A large force of miners and quantities of supplies were sent out to the camp today. This is the largest single sale on record in Arizona.

A rich body of high grade ore is reported to have been struck in the Gold Dust mine of the Hudson group on Lynx creek. Some of the ore will run several hundred dollars per ton while the majority of it will run over \$80 in gold and copper. The vein is a large one but the ore body varies from one to three feet in thickness.

The new 10-stamp mill for the Brooklyn mine is nearing completion and when it has been put in readiness the property will resume operations and it is the intention of the gentlemen who have taken hold of it to push the development as fast as it can be made. The Consolidated Copper company, had during the past few days two eastern gentlemen, as guests at his home in this city. These are Col. J. T. Small of Lewiston, Maine, and Prof. L. C. Bateman, of Auburn, a nearby city. They are out in this section for mining and pleasure, and they seem to be getting much of both. Yesterday, in company with Mr. Monroe, they drove over to the Monroe group of mines and made a careful inspection of the same. Since Mr. Monroe has been in New York some marvelous developments have been made at the mine, and the body of rich ore now in sight fairly dazzled the two gentlemen from the east. It is said that Col. Small has purchased quite heavily of the stock. A Journal-Miner reporter saw Mr. Small this morning and had a brief but pleasant interview. He said: "I have visited every section of our country, but it seems to me that this is by far the richest in mineral resources. The Monroe mines are simply marvelous properties, and if I am not mistaken, will soon be ranked among the greatest producers in the territory. I also like the people here. They seem to be friendly and hospitable. I have seen no rowdian here, and the place is clean, well-kept and elegant and are kept up far better than the average city. In fact, I can see no reason why you should not all be pleased with your home. If you print anything that I say don't fail to speak a good word for Mr. Monroe. He is one of the best fellows I ever met, and one of the brightest withal."

Mr. Bateman is fully as enthusiastic as Col. Small. It has been more difficult for us to catch him in an interview, for since striking town he has been going like a streak of lightning. He is a hustler from the word go, and we can see no reason why you should not all be pleased with your home. If you print anything that I say don't fail to speak a good word for Mr. Monroe. He is one of the best fellows I ever met, and one of the brightest withal."

Public Records.

The following is the daily report of instruments filed in the county recorder's office today:

May 19.—Mid Jones files a warranty on Old Virginia oil mines, Cherry Creek dist.

J. H. Wingfield to R. M. Hoppen, deed to houses and lot of land at Fort Verde, \$100.

R. M. Clark to A. S. Collins, W. H. Fulton et al., deed Morning Star and Sundance mines, Weaver dist.

Julia Farnsworth to J. F. Holden, deed five eighths Golden Wave mine, Martinez dist., \$1000.

State Mut and L. Assn to J. W. Hobbs and wife, release mg.

M. Lee et al., loc Iron Dollar mine, Big Horn dist.

Green Bros & Co. to J. L. Smith, deed one acre in sec 13 in T. 23 N., R. 23 E., S. 34 W., \$200.

A. Rowe files a w. on Dark Horse et al. mines, Black Rock dist.

L. White to White Gold Mt. Co., deed Cameron, Rt. Rover, Oro Rico et al. mines, Black Rock dist.

White Gold Mt. Co. files a w. on J. L. Bower et al., Black Rock dist.

J. L. Cummings, H. J. O'Brien, et al. to Hassayampa Mt. and Dev. Co., deed Todd, Zono B., Leo et al., White Picocho dist., \$1.

McKelvin, J. C. Herndon and T. G. Morris to Hassayampa Mt. and Dev. Co., deed Greenwood, Blackwood et al., \$1.

Twelve mining locations.

May 21.—C. S. Chick to E. S. Gosney mtg land in sec 1 and 3, 15 N. and E. water, consideration \$300.

Chas. F. Roberts to Geo. Wisniewski, deed lot 10, block 13 Prescott, \$100.

Dora Fagan to W. J. Mulvenon, deed to lots 18 and 20 block 13 Prescott, \$1.

T. J. Morrison and C. M. Marsh et al. incorporate Development and Imp. Co. of Arizona, cap \$100,000.

Jas. Mahoney to L. L. White et al. agreement concerning claim of Dark Horse, Yellow Jacket, et al., Black Rock dist.

Two mining locations.

May 22.—Oro Mining Co. to A. and B. Heller et al., deed Little Annie, Tiger dist., consideration \$1.

A. and B. Heller et al. to Oro Mining Co. deed to Little Annie, Beatrice et al., Tiger dist., consideration \$1.

R. A. Thomas files a w. of a work on mine in Black Hill dist.

Ed Gillespie to W. P. Sims, deed to Bulldog and Omaha mines, Martinez dist. \$2000.

Rebecca Smith to G. W. Hall, deed to lot 30 block 4 Jerome, \$1.

Alice Mosher to Mrs. Emma Garred, deed to lot 18 block 13 Moeller, \$100.

W. E. Hazeltine and wife to J. S. Acker, deed to lot 20 block 5 East Prescott, \$500.

W. E. Hazeltine and wife to J. S. Acker, deed to lot 18 block 5 East Prescott, \$2000.

Two mining locations.

May 23.—A. D. Shultz to D. N. Jenkins, deed to lot 10, block 13 Prescott, \$100.

J. E. Summers to A. Peterson, deed, one half Mammoth mine, Hassayampa dist., \$150.

J. P. Seare and Joe of Mammoth mine, Walker dist.

Eight mining locations.

NOT A SICK DAY SINCE.

"I was taken severely sick with kidney trouble. I tried all sorts of medicine, none of which relieved me. One day I saw an ad of your Electric Bitters and determined to try that. After taking a few doses I felt relieved, and soon thereafter was entirely cured, and have not seen a sick day since. Neighbors of mine have been cured of rheumatism, neuralgia, liver and kidney troubles and general debility." This is what B. E. Buse, of Fremont, N. C., writes. Only \$50.00 at all druggists.

ARE PLEASED  
WITH PRESCOTTHave Become Interest-  
ed in Our Mines.Col. Small and Prof. Bateman Visit  
the Monroe Mines and Are  
Enthusiastic.

Donald C. Monroe, of the Monrovia Consolidated Copper company, had during the past few days two eastern gentlemen, as guests at his home in this city. These are Col. J. T. Small of Lewiston, Maine, and Prof. L. C. Bateman, of Auburn, a nearby city. They are out in this section for mining and pleasure, and they seem to be getting much of both. solely and simply to create an uproar and that the New York police commissioners, Gen. Greene, was given warning of the alleged dynamite plot to make the sensation larger.

Tempe, Florida, May 20.—Amos Randall, white, Dan Kelly, and Harry Golden, colored, were lynched at Mulberry thirty miles from here, early today for the murder of Barney Brown, a white man.

Brown was a prominent advocate of prohibition. On Monday night, while en route to his home he was shot from ambush and his throat cut. Evidence was secured to show that Randall, who was suspected of being the keeper of a "blind tiger," hired the negroes to do the killing. After the capture of the negroes confessed. The lynching was done by unmasked men, many of them prominent in the county.

Havana, May 20.—The celebration of Cuba's Independence day, the first anniversary of the establishment of the Cuban republic began at midnight with illumination of the fronts of the principal clubs, sending up of rockets and the scattering of stream whistles. Today, business was completely suspended, and the streets are thronged with people. President Palma, accompanied by his cabinet officers, received the police and fire department and later the rural guards and the artillery.

&lt;
